

Freeport Power Dock

Model No. FPUSB84

Freeport Power Dock

Add the power to create more. The Freeport power dock provides 1870 watts of pure power through 8 surge-protected AC outlets and 4 fuse-protected USB outlets in one convenient station—the perfect way to enable your office desk for any task while protecting even your most sensitive devices.

Freeport PLUS

The Freeport Plus offers all the advantages of our Freeport Power Dock, and adds a convenient front panel that brings 4 configurable high-speed USB ports and a standard audio jack within easy reach. This allows you to hide away your CPU (with our space-saving CPU Mount option) and still have access to all its ports. It's almost like magic.

Key Freeport Features

- 8 standard AC outlets & 4 USB outlets
- 1870 watts of power output
- Four High Speed USB outlets with over-load/short circuit/surge protection
- Widely spaced AC plugs to accommodate even the biggest wall-wart adapters
- AC and USB LED indicators provide feedback that devices are powered, monitored, and protected
- Heavy-duty cord for optimal safe power

Key Freeport Plus Features

Includes the Freeport, and adds a convenient user-facing front panel that includes:

- 4 high-speed USB ports
- 2 audio port – 3.5mm (1/8th inch) female jacks

Each USB port can be configured as a high-speed charging port, standard charging port, or a data port, allowing you to charge up to 4 devices simultaneously, or simply connect to your PC.

- Built-in F2A/250VAC fuse for USB outlets.
- USB Safety covers protect outlets from dust and wear.
- Includes two 1.5 meter high-speed USB 3.0 cables
- Includes two 3 meter high-speed USB 3.0 cables
- Includes two 3 meter 3.5mm audio cables
- USB Protection: overload/short-circuit/surge protection

Specifications

- Input Voltage: 125VAC 60Hz
- AC Output Voltage: 125VAC 60Hz
- AC Output Power Rated: 1875watts
- USB Output Voltage: DC5V \pm 0.25V
- USB Output Power: DC 5V/4.2A (Total), two with 2.4A, one with 1A, and one with 0~2.4A
- Circuit protection includes both Overload and Overheat protection; 15 amps
- Advanced circuitry reduces electromagnetic interference
- ETL Certified
- Heavy duty 10 foot power cord
- 18 month warranty

LED Indicators

- AC/USB LED Off: Grid cut, power switch is off due to disconnection
- USB LED Green: Normal work status
- AC LED Red: Normal work status
- USB LED flashing: USB overload or short-circuit
